

Kumarkhaniya Aditya

PYTHON BACKEND DEVELOPER | CLOUD & DEVOPS

Ahmedabad, Gujarat · +91 83026 13931 · kumarkhaniyaaditya123@gmail.com · GitHub: aditya-121105 · LinkedIn: kumarkhaniya-aditya

Final-year Computer Engineering student building backend systems with Python and FastAPI. Hands-on experience with Docker, AWS infrastructure, and CI/CD automation.

EDUCATION

B.Tech Computer Engineering (AI/ML)	CGPA 9.23/10
Silver Oak College of Engineering and Technology	Pursuing (2023–2027)
Class XII (CBSE)	70%
Science — PCM + Computer Science	
Class X (GSEB)	86%

TECHNICAL SKILLS

Programming	Python, SQL, C, C++, Java, JavaScript
Backend	FastAPI, Flask, REST APIs, SQLAlchemy, Alembic, Pydantic, JWT Authentication
Databases	PostgreSQL, MySQL, SQLite
Cloud & DevOps	Docker, Docker Compose, AWS EC2, AWS ECS, AWS ECR, AWS IAM, AWS S3, GitHub Actions, Nginx, Linux, CI/CD
Developer Tools	Git, GitHub, PyCharm

PROJECTS

ResumeGuide

Python · FastAPI · PostgreSQL · SQLAlchemy · Docker · AWS · GitHub Actions

Engineered a cloud-native resume analysis platform using FastAPI, PostgreSQL, and SQLAlchemy, implementing JWT and Google OAuth authentication for secure user management.

Containerized application with Docker and Docker Compose, orchestrated deployment on AWS ECS with ECR registry, configured EC2 infrastructure, IAM policies, and S3 storage integration.

Automated CI/CD pipelines using GitHub Actions for testing and deployment, configured Nginx reverse proxy with SSL, and integrated AWS Parameter Store for environment management.

SpeakLift

FastAPI · PostgreSQL · SQLAlchemy · Alembic · JWT · spaCy · Sentence Transformers

Architected FastAPI backend using repository and service layer patterns with dependency injection for maintainable and testable code structure.

Implemented JWT authentication with bcrypt hashing and designed RESTful APIs for interview and question-bank management backed by PostgreSQL with Alembic schema migrations.

Integrated spaCy NLP and Sentence Transformers for question generation pipeline with structured configuration management, comprehensive exception handling, and architecture documentation.

Tuition Management System

Flask · SQLAlchemy · SQLite · Docker

Designed a Flask and SQLAlchemy backend to manage attendance, marks, fees, and timetables through a role-based access system.

Implemented automated PDF receipt generation and CSV export for streamlined reporting and record-keeping.

Containerized the application with Docker for consistent local setup and deployment.

EXPERIENCE

Cloud Technology Intern — AxisRay

June 2025 · 15 Days

Completed hands-on assignments covering cloud infrastructure fundamentals, networking concepts, and deployment architectures.

Explored cloud service models (IaaS, PaaS, SaaS) and deployment workflows for scalable applications on cloud platforms.

MLOps Technology Intern — AxisRay

May 2026 · 15 Days

Completed hands-on assignments covering machine learning deployment workflows including model versioning, containerization, and CI/CD integration.

Studied MLOps lifecycle concepts covering model training, deployment, monitoring, and automated retraining strategies.

CERTIFICATIONS

- AWS Cloud Practitioner Essentials
- NPTEL Elite — Data Structures and Algorithms using Java (IIT Kharagpur)
- IBM AI Fundamentals: Language and Vision in AI
